

SILVER & GOLD

The long awaited full-length album **Point A- Point A** out now on **BandWagon Records**.

Northern Colorado's Silver & Gold excitedly announce the release of their debut full-length album, **Point A – Point A**. The new record's arc parallels the band's personal journey over the past two years, offering a depth of musicality along the way. From the alluring, heartfelt intimacy of "Rotations" to the high-energy feedback-laden indie rock of "Brave(ry)," **Point A - Point A** truly tells Silver & Gold's story of exploration and return.

The band met while pursuing music degrees at the University of Northern Colorado. They soon integrated Drose on drums, officially forming the current Silver & Gold line-up, and quickly becoming fixtures of the Colorado music scene. Now, just three short years later, they have released two EP's, one full length album, recently made the cover of Bandwagon Magazine and have two successful tours to the west coast under their belt.

Silver & Gold has shared the stage with notable alternative rock acts COIN, Night Riots, Sorority Noise, Eisley and more.

POINT A - POINT A FULL LENGTH DEBUT

Released: January 19th, 2018
